Form 990, Part iii Line 4a- Program Service Accomplishments

Services and Population Health Impact. Our average patient is 46 years old. Sixty-five percent of our patients are uninsured. The mobility of our health clinic means we are able to fill the gap, whether they are in line at the food bank or their job, we bring lifesaving health care to them. The Health Wagon serves individuals and families with free, integrated health care that is culturally sensitive. We provide primary and specialty health care services (a comprehensive list of services is below). In addition to our routine services, we provide the region with strategically coordinated outreach efforts. The breadth of our mission, accomplishments and unprecedented community collaboration attest to our commitment to the people in the Central Appalachian region. Caring and committed partners, including foundations, corporations, civic groups, churches and businesses, and individuals, support the Health Wagon and our outreaches to make delivery of health care to some of the most disadvantaged in the nation.

In 2018, the Health Wagon documented 16,670 visits/encounters serving 4,724 unduplicated patients. Patient census demonstrated 65% percent of the patients are uninsured with the remaining 35% being underinsured with high copays and deductibles. The Health Wagon performed 900 specialty and telehealth visits. The Health Wagon travels throughout the community to nine different sites in Virginia and two in Kentucky to deliver care within the community on a biweekly and monthly basis. Changing the Appalachian Healthcare Landscape. In the short span of four decades, the Health Wagon is changing the landscape of health care in this corner of southwest Virginia. Persistent low health ranking and indicators are starting to turn around. Many believe that this is spurred by the Health Wagon's efforts of bringing lifesaving health care resources to the poor in Appalachia. The Health wagon is instrumental in using a little to create a lot, leveraging resources and facilitating partnerships that are advancing healthcare for the region.

Education. As a Family Nurse Practitioner and Executive Director of St. Mary's Health Wagon, Dr. Teresa Tyson leads a \$2.6 million-dollar medical nonprofit in Central Appalachia. St. Mary's Health Wagon exists as the region's only safety net health care provider those living in the farthest portion of southwest Virginia. Dr. Tyson leads her clinic in promoting the mission of providing quality, affordable, accessible care to all with an emphasis on serving the underserved. Dr. Tyson is doctorally-prepared. Dr. Tyson received her Doctorate in Nursing Practice from the University of Alabama, Master of Science in Nursing from the University of Kentucky and her Bachelor of Science in Nursing from East Tennessee State University. Media Impact and Response. The Health Wagon's leadership in the healthcare sector has garnered notable recognition including interviews in media that include 60 Minutes, Nightline, CBS Nightly News, Inside Edition, Washington Post, and New York Times along with extensive international media attention. This attention provides the Health Wagon and its partners a way to highlight the extreme disparities facing the Health Wagon's service area. This exposure also underscores The Health Wagon's efforts and her devotion to increasing access to healthcare. In addition, the Health Wagon's voice has been heard at the United Nations and World Health Organization numerous times. The Health Wagon serves on many healthcare boards, advisory councils, and coalitions as an Appalachian region ambassador. The Health Wagon's leadership often serves as a guest speaker/lecturer on topics such as rural healthcare access, social justice, health care access, health care disparities, nurse-managed clinics, vulnerable populations, mobile healthcare delivery, outreach, telehealth, M7 (formally Remote Area Medical (RAM) Wise County health expeditions and other issues). The Health Wagon prides itself that it is a persuasive voice for the Appalachian people whose voice is often not heard.

Advancing Higher Education. In addition, the Health Wagon's health care providers serve as a preceptor for various students (medical, nursing and business students typically) from Harvard, University of Virginia, University of Richmond, East Tennessee State University, Frontier Nursing University, Radford University, and many, many others. Extensive collaborative relationships with colleges and universities to provide didactic clinical based experiences for students has been established. This gives students from all disciplines a real hands-on experience in a rural healthcare/clinic. Over forty institutions participate. Education is provided that enriches the student experience in dealing with rural health and Appalachian culture. It allows for addressing significant health care disparities.

Accelerated Growth due to Extreme Healthcare Needs. Since its founding in 1980, the Health Wagon has grown phenomenally. Under The Health Wagon's direction, the Health Wagon has grown from a one-person staff to a staff of 20 with five Doctors of Nursing Practice/Nurse Practitioners, a Registered Nurse, and four Licensed Practical Nurses plus ancillary staff. A host of volunteers round out the Health Wagon core team. The Health Wagon's selfless service has also led the organization beyond the delivery of primary care. Appalachian residents now have access to specialty and tertiary healthcare services due to partnerships that The Health Wagon and her team have established with providers, universities, non-profits, and for-profit organizations. Further, the Health Wagon strives to address all of the social determinants of health, the factors that influence health and wellness and access to care, through these collaborative relationships. The underserved patients that the Health Wagon treats face extreme challenges to achieving better health and access to healthcare, including poverty, unemployment, low educational attainment and literacy, geography, limited public transportation systems, and food insecurity. The area served is an extremely low resource area.

The Health Wagon works diligently to mitigate barriers to health care access by employing innovative approaches:

- Growing and expanding the services through innovative mobile health services,
- Establishment of the one of the most robust telehealth network in the nation that connects the organization's patients to nationally renowned physician specialists (the Health Wagon is the highest utilizer of telehealth in Virginia),
- Managing various specialty clinics (endocrinology, cardiology, nephrology, dermatology and so many more specialties),
- Impactful outreaches (community health fairs, mass immunization programs),
- Planning and initiating the first-ever national FREE clinic model using telehealth technology with volunteer health care providers, and

•Innovative approaches applied to scale to reach the vulnerable population in mass.

First FAA-Approved Drone Delivery in the United States. In 2015, The Health Wagon was an instrumental partner in the first FAA-approved drone delivery in the United States in partnership with Flirty, NASA Langley, and others. The drone was used to deliver pharmaceuticals to patients. This historic drone is scheduled to be inducted into the Smithsonian's National Air and Space Museum.

First Army Readiness Training Event in Virginia. In 2016, The Health Wagon submitted an application to the Department of Defense for an Innovative Readiness Training (IRT) in Wise, Virginia that started in 2017 and continues year after year. IRT is a Department of Defense military training opportunity, exclusive to the United States and its territories, that delivers joint training opportunities to increase deployment readiness while serving underserved communities at the same time. The event was held for two weeks in May 2017. Over 100 military service members brought no-cost dental, medical, vision and veterinary services to patients in The Health Wagon's region. This was Virginia's 1st ever IRT event. The second IRT was held on August 16-29, 2019 that served another 1,506 patients (Dental: 576, Optometry: 557. Medical: 373, Veterinary: 519, Eyeglass Fabrication: 550) with 7,700 procedures being performed.

First Tele-cystoscopies via Telehealth in the World. The Health Wagon also actively participates in a research project with the University of Virginia whereas cystoscopies (light into the bladder) are being performed via telehealth. This is the first time in the world that this has been accomplished. The advanced diagnostic procedure is used to detect bladder cancer. The first clinic performed had six individuals that were found with tumors, all of which had to go for further bladder tissue resections. The Health Wagon's providers are being trained to provide this valuable procedure.

Largest Medical Outreach in the USA. The Health Wagon remains at the forefront of healthcare innovation and is most proud of Dr. Tyson's coordination of the Move Mountain Medical Missions (M7) (formally Remote Area Medical (RAM) Health Expedition Wise County), the largest health outreach of its kind in the nation. This three-day clinic provides free medical, dental and vision services to thousands of patients annually in Wise, VA. In June 2019, The Health Wagon celebrated its 20th anniversary. This event has saved countless lives by providing health services to patients who would not otherwise receive this level of medical care. During the 2019 event, the organization's 100,000th patient was saw. The Health Wagon founded this event in 1999 and it continues with great vigor and enthusiasm and has evolved into a medical mecca for those seeking healthcare that they cannot obtain otherwise.

First Free Diagnostic Ultrasound Program. The Health Wagon, along with valuable support from Phillips Foundation, provides a free diagnostic ultrasound program, saving lives by the provision of abdominal, transvaginal, echo and vascular scans free of charge to patients that would otherwise have to forego needed test due to cost. A radiologist in New York reads these images at no cost for the patient via picture archiving and communication system (PACS) technology.

First Diversion Free Opioid Addiction Program. An innovative evidence-based integrated care model that combines both physical and behavioral healthcare services (including medications assisted treatment), behavioral health counseling, peer counseling, psychiatry, addiction specialty care via telehealth with the University of Virginia. This is a laser-focused outpatient clinic that is addressing the opioid epidemic that is addressing the number #1 healthcare crisis facing the nation. The program is based on the American Society of Addiction Medication recommendations for an effective treatment program using injectable diversion free medications.

Other Inaugural Events. The Health Wagon's visionary leadership is directing the clinic to achieve an even greater impact on the individuals in need in the Appalachia region. Current initiatives or programs scheduled that are occurring:

- Medication-assisted treatment (MAT) clinic for opioid addiction.
- Medicaid enrollment with Virginia's new expansion - state leader in enrollment numbers
- Expansion of healthcare outreach and services in Williamsburg, Harlan and Hazard, Ky
- Groundbreaking for new 5,500 square foot clinic in Dickenson County (state's most disadvantaged county), complete with ophthalmology services is occurring
- The dental clinic at Wise clinic location also with mobile dentistry with Panorex capabilities

Making a Difference. Many people, politicians, and groups express hopes, plans, and dreams to make a difference in the Appalachian region. The Health Wagon under the exemplary leadership is there already, making a difference in daily saving lives. The Health Wagon is poised to do more in the coming months and years that will continue to elevate the health and welfare of an entire region. Health ranking demonstrates that the countless hours of providing patients with individualized care, working tirelessly to remove the barriers of healthcare access and the aggressive community outreaches are making the inroads needed to turn the plight of one of the nation's most disadvantaged populations around. The Health Wagon's vision to address health inequality in Appalachia is making a difference.

Accomplishments and Impact: The Health Wagon is saving lives daily. Lives of poor patients in Central Appalachia who are uninsured or who have insurance but cannot afford patient pay responsibilities (deductibles, out-of-pocket costs) are the ones who are saved. The Health Wagon continually looks for ways to use innovative technology to help those in need as well. The Appalachian region is historically a low resource area with limited capabilities; therefore, the Health Wagon has to be creative and leverage unique avenues to bring resources to the patient base. One of the Health Wagon's biggest strengths is networking and finding new resources for the medically underserved patients that are served daily by the Health Wagon.
